## Irrigation Notice.

Holders of water privileges, or those paying water rates, are hereby notified that the hours for irrigation purposes are from 6 to 8 o'clock A. M. and from 4 to 6 o'clock P. M.

11. Holders of water privileges on the slopes of Punchbowl above Green street, and in Nuuanu Valley above School street, are hereby notified that they will not be restricted to the irrigation hours of 8 to 8 A. M. and 4 to 6 P. M., but will be allowed to irrigate whenever sufficient water is available, provided that they do not use the water for irrigation purposes for more than four hours in every twenty-four.

## Water Notice.

In accordance with Section 1 of Chapter XXVI of the laws of 1886:

All persons holding water privileges or those paying water rates, are hereby notified that the water rates for the term ending December 31, 1897, will be due and payable at the office of the Honolulu Water Works, on the 1st day of July, 1897.

All such rates remaining unpaid for fifteen days after they are due will be subject to an additional 10 per cent.

Rates are payable at the office of the Water Works in the Kapuniwa Building.

SATURDAY, JUNE 26, 1897.

One of the Washington dispatches received by the last mail says that the object of introducing the Hawaiian treaty at the special session of Congress was that it might be referred in the ordinary way to the Foreign Relations Committee, who would have abundant time to digest it during the recess, and be in a position to present such an exhaustive report on the important questions involved at the regular session that little time would be needed for its consideration and final passage. It is known in Honolulu, beyond any reasonable doubt, that the McKinley administration is determined to make the annexation of Hawaii one of the earliest possible acts of great moment in its record.

## BRITISH PACIFIC CABLE.

Important Statements Made in the Parliament of Canada.

Ottawa, June 9.—In the Senate today Sir Mackenzie Bowell asked whether the report of the Canadian commissioners appointed to attend the Pacific cable conference will be laid before Parliament. The Secretary of State said the government is not in a position to make the contents public yet, inasmuch as the matter forms the basis of a further conference which will take place between Mr. Laurier and the Imperial authorities during the Prime Minister's visit to England.

Senator Macdonald of British Columbia asked if the government of Hawaii has consented to allow the landing of the Pacific cable on the island as reported in the newspapers. Mr. Scott was unable to give any information. Sir Mackenzie Bowell pointed out that the government of Hawaii could not grant any such permission without abrogating their treaty with the United States, as under that treaty the consent of the United States is necessary. That consent has already been refused.

## Canadians Ahead.

Canadian volunteers have successively won prizes in the royal military tournament in England. Private George Stewart of the 48th Highlanders, Toronto, took first prize in bayonet exercise against the Empire.

## Grand Old Man Aggressive.

One of the Irish newspapers publishes a letter from Mr. Gladstone, in which he refers to the "insolence and audacity of the Sultan's imperious request to be permitted to send envoys to the Jubilee." Mr. Gladstone expresses the hope that prudence and decency will induce the Government to stifle the request, saying "the envoys of the great assassin would meet with a disagreeable reception in England."

## BY POLICE AT CALLAO.

Inquiry here confirms the story coming from Lima to the effect that the State Department has lodged a demand with the United States charge of legation at Lima for the release of the mate of the American bark "Uncle John." He was ashore on December 19 last at Callao, and was arrested because of his constant demand for "Rainier Beer." On tap or in bottles at the Criterion Saloon.

## Another Deadly Weapon.

Heri Mauser, the inventor of the well-known rifle bearing his name, has submitted to the German war office a new mechanism that is applicable to pistols or carbines which makes it possible to fire ninety shots a minute. He asserts that it will revolutionize cavalry equipment. The chief feature of the invention is the rapid automatic ejecting of the spent cartridges.

## Novelty in Parade.

In the Jubilee procession at Montreal the allegorical cars were to run over the electric street railways and be drawn by the motors.

Printed ducks are just as good, if not better than anything else for boys' shirt waists. They wash and wear well, two very important considerations. Kerr has them in a large variety of patterns at eight yards for one dollar.

## Timely Topics

June 22, 1897.

The cry still is "Let us have light." It is true we have got a lamp at the boat landing in the last few days but we want more. We want lights along the Waikiki road and out round the park and lots of other places frequented by cyclists. If the government can't afford electric lights we can supply a sufficient number of the DIETZ STREET LAMPS to do the business. These are cheap and don't burn much oil and are not affected by rain or wind.

For a big stable or large lanai there is no better lamp than the Dietz—a large lamp made especially for the purpose. It throws out a brilliant and steady light, is cheap and an economical oil consumer.

We have a big lot of barn and stable lamps and lanterns of various sizes and makes on hand.

For the house we carry a line of 2, 3 and 4 light chandeliers, hall lamps in antique designs, standing and piano lamps, etc., etc.

In all the above lines of goods we have made a big reduction in price and housekeepers will do well to call and examine our stock.
